

10 YEARS OF HEARING SOLUTIONS!

Communication is priceless. With it, we connect with our world on a daily basis. Unfortunately, even the slightest hearing loss can be a significant obstacle resulting in social isolation. Interactions are hindered as speech becomes difficult to understand, loved ones become mumblers, punch lines are missed and repeating becomes a nuisance. Untreated hearing loss can also lead to diminished cognitive abilities. Indeed, untreated hearing loss has a great impact on one's quality of life. Selecting the right hearing healthcare provider is crucial.

Rosanne McNamee, Doctor of Audiology, Registered Audiologist, is the owner of **Hearing Solutions Clinic**. After a year away for a maternity leave, Rosanne is back to celebrate the 10th year of her practice! This 10 year success undoubtedly stems from the fact that Hearing Solutions Clinic offers a kind of hearing healthcare that is lacking elsewhere in Ottawa. At Hearing Solutions Clinic you won't hear an office jingle, find crowded waiting rooms, be lured by marketing schemes or feel the pressure of sales tactics. Instead, you will find a clinic with old fashion roots where hearing healthcare is the priority, not hearing aid sales. It is large enough to offer amazing service yet small enough to allow for more personal professional relationships. With such a strong focus on patient care, Rosanne strives to offer every patient nothing but the best. "I believe in treating others the way I would want to be treated, so I care for my patients as I would family. I give everyone 100 percent of myself as we work together to reach their hearing goals." explains Rosanne.

This personalized hearing healthcare approach differs from the larger hearing clinics and hearing chains. Unfortunately, patients there may be shuffled between staff, rushed through consultations and offered a limited choice of hearing aid models. At Hearing Solutions Clinic, the same Audiologist always takes her time to really listen to and understand your concerns. This is followed by the luxury

of being able to choose from an unlimited range of the most up-to-date products thereby guaranteeing a hearing solution that is unique to *you, your* lifestyle and your hearing needs. "It would not be in my patient's best interest for the clinic to carry only one line of products or even just a few favored manufacturers. It is important to consider all the options across all of the manufacturers because products vary greatly -from a variety of noise reduction systems to different remote options, from rechargeable hearing aids to open ear products and Bluetooth capabilities." explains Rosanne, "Furthermore, hearing aids may not always be the best or only solution. We therefore also carry a wide variety of assistive listening devices." By remaining independent, private, as well as locally owned and operated, Hearing Solutions Clinic has no manufacturer limitations and very competitive prices.

Despite Hearing Solutions Clinic's ongoing growth, Rosanne protects the special quality of her clinic by hiring professionals that honor her traditional caring views. The Hearing Solutions Clinic team currently consists of two Doctors of

Audiology, Rosanne as well as Maria Perez. Both are very diligent at keeping Hearing Solutions Clinic up to date in technology and practice. Consequently, you receive the service of professionals who are not only top in their field, but who pride themselves on offering quality products and the highest standard of care. Dorothy Johnson, the receptionist, completes the team. Her forte is her accommodating and pleasant manner. Like Rosanne and Maria, Dorothy always has your best interest at heart. Together, the members of this team enable Hearing Solutions Clinic to be more efficient than ever without straying from the core values, beliefs and principles that created Hearing Solutions Clinic a decade ago.

For unparalleled personalized hearing healthcare, book your consultation with one of our Doctors of Audiology at **Hearing Solutions Clinic**, conveniently located at **1915 Baseline Rd, suite 202** (across from Home Depot) where parking is free! Home visits are also an option.
