

A Hearing Solution for You!

Communication is priceless. Unfortunately, hearing loss can hinder this much needed ability. Loved ones become mumblers and punch lines are missed. Hearing loss, even when slight, has a great impact on quality of life and so selecting the right hearing healthcare provider is crucial.

Rosanne McNamee, a Registered Audiologist and owner of **Hearing Solutions Clinic**, is in many ways the number one reason to choose Hearing Solutions Clinic as *your* hearing healthcare provider. "I opened my practice in 2001 to offer the kind of hearing healthcare I felt could not be found anywhere in Nepean," notes Rosanne. "Call me old fashioned, but I wanted to practice in a clinic small enough to develop professional relationships with my patients, where the goal was hearing healthcare, not hearing aid sales."

With a focus on patient care, Rosanne strives to offer them nothing but the best. "I believe in always treating others how I would want to be treated and so I treat my patients like family. This helps them to open up and tell me about their real hearing needs."

Owner Rosanne McNamee, a Registered Audiologist, strives to offer nothing but the best –especially personalized care.

Rosanne prides herself on personalized care. Unlike larger facilities, patients at Hearing Solutions Clinic have the luxury of always dealing with Rosanne, the owner, each and every visit. This guarantees a vested interest in their satisfaction throughout each and every visit.

"I also feel that to offer real value, a wide range of products is necessary because everyone has distinct needs," adds Rosanne. By remaining an independent private clinic, Hearing Solutions Clinic has no manufacturer limitations. All hearing aid makes and models can be sold and serviced. "This is important because today's different hearing aid manufacturers offer a variety of exciting options such as rechargeable batteries, open ear products and Bluetooth compatibility," explains Rosanne. Consequently, you can be sure you will find a hearing aid that is right for *you* and at a very competitive price because

Hearing Solutions Clinic doesn't have the enormous overhead of larger clinics.

You can be sure you will find a hearing aid that is right for you at a very competitive price.

Finally, patients of Hearing Solutions Clinic also receive hearing healthcare from a fluently bilingual professional whose credentials are impressive. Rosanne is a Registered Audiologist, with a Master's degree in Health Sciences and is scheduled to complete her Audiology Doctorate October 31, 2008. She is also a part-time Professor at the University of Ottawa and is a Council Member of the College of Audiology and Speech-Language Pathology of Ontario. As a result, Hearing Solutions Clinic is always kept up to date in technology and practice.

For unparalleled personalized hearing healthcare, book your consultation with Rosanne McNamee at **Hearing Solutions Clinic**, conveniently located at **202-1915 Baseline Rd** (across from Home Depot) where the parking is free! **Call 613-288-0295 today!**
